

Date: 30 November 2018

New deadline for Nibor submissions

Amendments have been made to the Nibor rules. The rules enter into force on 1 December 2018.

The amendment changes the deadline for when the panel banks shall report Nibor submissions into the calculating agent's system. Submissions shall be entered into the system no later than 30 minutes before the fix time but may still be adjusted until the fix time when market conditions imply this.
